***Allowable Subject Matter***

1. Claims 5-6 and 8 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

Kato et al (6,302,676) disclose an apparatus for manufacturing slide fastener continuous element row, comprising a pair of parallel threaded rods (Fig. 5-6, 22), and pressing members having tips (23a, 25a) protrude in the recess in between the threads of the threaded rods.

However, Kate et al fail to disclose that the tips are formed in the middle section of the threaded rod as a single straight bank (as in current invention Fig. 8, 13) on the recesses of the threads of the threaded rod.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the amended drawings filed April 28, 2005 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thu Khanh T. Nguyen whose telephone number is 571-272-1136. The examiner can normally be reached on Monday- Friday, 6:30-4:00.
